REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach a method of bridge alignment which uses a transmitter located proximate an aircraft doorway. For example, Anderberg (U.S. Patent 6,552,327) uses a transmitter located on the boarding bridge. There is no teaching or motivation to have modified the configuration of Anderberg in such a way as to anticipate the claims of the present invention.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary Hartmann whose telephone number is 703-305-4549. The examiner can normally be reached on Monday through Friday, 9am-6pm.
